PROFILE

Data analyst and statistician-demographer (MSc level) with 9 years of experience in collecting, cleaning, analyzing and visualizing survey and census data (MICS, population census) for UNICEF, UNFPA, GIZ and national statistics offices, as well as banking data (cards, Masrivi app, HR). I turn raw data into reliable indicators, maps and dashboards.

TECHNICAL SKILLS

Analysis: R (expert), Python, SQL, Stata, SPSS
Visualization: Power BI, Excel · Mapping: QGIS
Data collection: KoboToolbox / KoboCollect, CSPro
Nutrition and health: ENA for SMART, epidemiological methods and practice
Projections: DemProj, Spectrum, PASEX
Methods: sampling and weighting, data quality, Chi-square, ANOVA, monitoring and evaluation · NVivo, ATLAS.ti · Git/GitHub, generative AI

PROFESSIONAL EXPERIENCE

Freelance Data Analyst and Banking Data Consultant, BMCI · Mauritania Sept – Oct 2026
- Designed dashboards to monitor bank card activity.
- Monitored and analyzed the performance of the Masrivi banking app (usage, transactions, incidents).
- Built dashboards for the bank's human resources management.

National Consultant MICS, UNICEF · Remote (Mauritania) Since Sept 2025
- MICS 7: sampling, QGIS mapping, weighting, cleaning, analysis and indicators for national planning.

Consultant, Population Projections 2023–2053 (5th Census) · Mauritania Nov 2025 – Feb 2026
- 30-year projections (DemProj, Spectrum, PASEX) and thematic analysis of 5th census data.

Data Analysis Consultant, UNFPA (CERF) · Remote (Mauritania) Feb 2025 – Aug 2026
- KoboCollect data entry forms, cleaning and analysis of mobile clinic data from 72 localities (Hodh Ech Chargui and Guidimakha, high presence of Malian refugees).
- GBV, reproductive health, basic health, vaccination, malnutrition of children and pregnant women.

Statistical Consultant, ANSADE · Nouakchott, Mauritania Nov 2024 – Feb 2025
- Census data validation (consistency checks); indicators and thematic reports.

Survey Data Collection and Analysis Officer, SAS TRYOM · France 2020 – 2023
- Fieldwork and response-rate monitoring; database cleaning; statistical tables and summaries.

Data Processing Technician, University of Bordeaux · France Jul – Aug 2023
- Data entry, quality control and coding (road safety project).

Statistics and Demography Consultant, GIZ · Nouakchott, Mauritania 2018
- Survey tools, sampling, household food security analysis.

Statistician-Demographer, ONS / ANSADE · Mauritania 2008 – 2013
- MICS 4 and 4th census: fieldwork supervision, analysis and official reports.

PROJECTS

- **IPC Mauritania:** acute malnutrition analysis (Nov 2025 – Feb 2026) and projections to October 2026.
- **Nutrition surveys (ENA for SMART):** plausibility checks, acute malnutrition prevalence.
- **MICS 7 dashboard (demo, simulated data):** regional indicators with composite index (Python, Power BI).
